

ADVANCED CLASSROOM TECHNOLOGIES

DIGITAL EQUITY THROUGH CLASSROOM TRANSFORMATION

CLASSROOM TECHNOLOGY, IT'S WHAT WE DO.

At Advanced Classroom Technologies, our primary focus is digital equity. Many technology resellers can provide the tools, but ACT stands apart as the only technology integration partner that focuses on achieving equitable outcomes for all students. Our team specializes in creating inclusive learning environments through consultation, sales, installation/device commissioning, professional development and service. With a 25 year history of transforming classrooms, training teachers, and supporting students, the ACT team has the experience to work with your school to achieve life-changing, long-lasting impacts on student learning.

WHY CHOOSE ACT

We accommodate client schedules and do not charge overtime for evening installs. This allows for installation during the school year **without class disruption**.

Many of the products and services that ACT offers are listed on state purchasing contracts including **KCDA, OETC, and PEPPM**. This saves our customers time and money.

Along with **white-glove installation**, ACT can manage logistics for most technology deployments to include: warehousing and deployment for larger projects.

ED-TECH CONSULTATION

Your ideas and our focus on the most cost effective solution to improve student outcomes.

INSTALLATION & SERVICE

Our certified installation and service technicians receive ongoing training and professional development. They have the skills and expertise to support your technology deployment now and in the future.

DESIGN & INTEGRATION

The path to transforming a classroom starts with visualizing a comprehensive solution.

PROFESSIONAL DEVELOPMENT

The smartest technology tool is only as effective as the teacher or student who use it. Our National Board Certified Teachers will help your teachers make a positive impact on student learning.
