

INSPIRING CLASSROOM EXPERIENCES

SMART is a world leader in technology for education. Over 30 years of innovation has culminated in interactive displays and software that connect students, lesson content and devices into unified learning experiences. We elevate learning outcomes with intuitive technology that is purpose built for education.

ELEVATE LEARNING OUTCOMES

Encourage students to connect

Social Emotional Learning

Students must develop soft skills to succeed in our connected world. With SMART solutions, it's easy for everyone to contribute and collaborate.

Reach every learner

Cognitive Skills & Achievement

Teachers need to easily shift their approaches to match students' individual learning needs. SMART solutions make interactive lessons simple and quick.

Make learning personal

Realizing Potential

Students succeed when they're given the freedom to learn their own way and at their own pace. SMART solutions support student-centered learning.

SMART LEARNING SUITE SOFTWARE

Turn static content into interactive lessons

Used by over
60 million
teachers and students
around the world

SMART Learning Suite combines lesson delivery, collaborative workspaces, game-based activities and formative assessment in one ultimate education suite. Teachers can access the suite anytime, from any computer – including at home – and send lessons to student devices.

Interactive lessons

Teachers can quickly and easily create dynamic, interactive lessons and deliver them at the display.

Collaborative workspaces

Students can use any device to explore topics, gather content and co-create on an inspiring canvas.

Game-based activities

Teachers can use customized templates to create game-based activities that engage students.

Formative assessment

Teachers can instantly assess student understanding by creating a question set that learners answer on any device.

One software suite. Countless ways to create and deliver lessons.

Desktop experience

Available for Windows® or Mac®, **SMART Notebook®** comes with lesson creation tools, subject-specific features and endless ways to wow students.

Online experience

Teachers can add game-based and collaborative activities to SMART Notebook, PDF, PowerPoint® and Google files, and send lessons to student devices.

SMART BOARD® INTERACTIVE DISPLAYS

Unparalleled collaborative experience

iQ Android™ embedded computing lets teachers switch with a tap, from delivering a lesson to writing on a whiteboard to surfing the internet.

Simultaneous Tool Differentiation frees multiple students to write, erase and move notes at the same time.

SMART Ink® software lets teachers write over videos and into PDFs, Microsoft Office® and Google files and websites, then save notes into almost any file type.

Object awareness™ detection automatically makes pens write, fingers move and palms erase.

ToolSense™ technology enables students to manipulate real world objects that are automatically recognized by the display.

Pen ID™ recognition lets multiple students write with different colored ink at the same time.

More SMART solutions for amplifying learning

Computing modules
Connect a SMART Chromebox or add a SMART OPS PC with Windows® 10 Pro.

SMART Document Camera™
Interact with live images and videos.

SMART Podium™ 624
Illustrate concepts. Take notes. Project to large displays.

SMART Electric Height-Adjustable Stands
Create active learning spaces anywhere.

HELP TEACHERS MASTER MORE WAYS TO ENGAGE.

Training and Implementation Services

Training and Professional Learning

Empower every teacher to use technology to put students at the center with a range of professional learning options to suit every budget.

Efficacy and Implementation Planning

Build capacity, achieve scale and show the results of your implementation with the help of consultants who specialize in integrating teaching practices, technology and curriculum.

GET THE MOST OUT OF YOUR SMART SOLUTION

Don't just give teachers great tools. Empower them with new ways to reach and inspire students.

With SMART, **teachers get free, unlimited access** to on-demand online training, live webinars, classroom resources and professional learning networks.

Schools are
342%

more likely to achieve outstanding success when using teaching best practices and technology frequently.

Teaching, Technology and Learning:
Understanding the Interconnection. Filigree
Research, 2016.

ONLY WITH SMART

We act on our commitment to technology-driven learning outcomes through:

- Performing hundreds of hours of **design research with teachers and students** every year
- Designing and manufacturing solutions **specifically for education**
- Supporting a global **network of over 2,000 teachers**
- **Partnering with districts** to create and carry out needs-based implementation plans
- Focusing all **training and professional learning** on instructional practices and how teachers can extend them with technology
- Engaging in **research** into EdTech best practices
- Documenting the **measurable results** of schools driving outcomes with technology

Whatever learning outcomes you need to achieve – test scores, SEL, career readiness and teacher satisfaction – we're committed to helping you get there.
