Addressing Learning Loss

with the Support of Technology

Promethean

Addressing Learning Loss

begins with selecting the right tech and tools to create a strong foundation that will equitably support student improvement. Tools that are flexible enough to provide access and engagement to digital learning no matter where students have to connect. We used sections from the CARES Act to categorize how the Promethean technology supports addressing learning loss.

Personalization

Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care.

Professional Development

Professional learning communities, to support educators in effectively using technology to provide meaningful learning opportunities for students that are aligned with grade level expectations

Improve Achievement

Provide a variety of activities and support to help improve the achievement of students to address the impact of lost instructional time due to the COVID-19 pandemic. Leveraging technology to provide embedded assessment and differentiated instruction, diagnostic and curriculum-embedded assessments.

Digital Access

These activities can include providing online learning to all students.

Educational Technology

To support the continuity of learning. An LEA may use CARES funds to purchase educational technology for student and educator use.

*The information contained herein is intended to help explain the CARES and is not intended as legal advice or guidance nor is it intended to guarantee coverage under the Act. Promethean recommends verifying with your administration that expenditures will be made for eligible uses prior to making any purchases using CARES funding.

Promethean

Addressing Learning Loss Tip:

Bridge the digital divide with research-based tools that are flexible enough to securely support teachers and students during both in-person and remote learning models.

ActivPanel® Elements™ Series

Our ActivPanel Elements series of interactive displays create an equitable classroom hub right out of the box or add additional computing devices to replicate your Chromebook or Windows ecosystems. No matter which solution you choose you will be providing your educators the power to facilitate collaboration, create engaging lessons, promote student engagement and make learning accessible for all students.

Promethean Panel Management partnered with Radix Viso empowers school IT administrators to manage all ActivPanel Elements series interactive displays and student devices remotely from one console. They can deploy updates, enroll new panels, set permissions, ensure security, view device and user details, deploy apps and much more.

Our award-winning lesson delivery platforms are included with the purchase of your ActivPanel and are designed to support instruction, engage students with interactive activities, assess students and provide instant feedback. Teachers can choose from our ActivInspire software or take learning anywhere with our ClassFlow cloud-based software. We value protecting student privacy that is why we made sure that ClassFlow is FERPA, COPPA and CSPC certified.

Promethean

Addressing Learning Loss Tip:
Provide secure access to digital content and applications that connect students to the classroom and their learning.

Panel Profiles
Secure multi-user functionality on the ActivPanel that allows each teacher to customize their instructional space with apps and tools to adjust learning in the classroom or on the go.

Cloud Connect
Securely connect your Google and Microsoft cloud drives to your profile to access drives, folders and content to help create flexible workflows that allow teachers and students to access their content from anywhere.

Screen Share
Quickly connect and mirror devices for real time learning, classroom collaborations, student-driven interactions and untethered teaching. Easily access the unified menu to make any shared device part of the learning experience.

Classroom Essential Apps
Digital access is combined with our researched based Classroom Essential app suite that puts essential instructional applications like annotate, capture, whiteboard, customizable spinners and timers all within arm's reach to ensure equitable access to the tools that are important to all learners.

Video Conferencing
Easily connect to your favorite conferencing app Zoom, Microsoft Teams, Google Meet, or Google Hangouts to give every remote student a front row seat, record your lessons or enhance your projects with digital story telling.

Multi-Windowing
The ability to work in multiple windows simultaneously is important for students to have the capability of note taking and researching, highlighting main ideas, organizing processes and accelerating student learning.

Addressing Learning Loss Tip:

Design and personalize assessments to fit the needs of your classroom and provide feedback to drive guidance on resources to help accelerate student learning.

ClassFlow

- 12 assessment options including "show your work" to truly assess student learning, provide feedback and guide data driven decisions
- Data analysis tools to see results by class, student or individual items
- Student Voice – 8 polling options that bring students into the classroom conversations
- Assistive Technology – Turn on closed caption for videos or add recorded directions and share with only students who need the modifications
- Assignments allow teachers to customize content playlists with a variety of personalized resources and activities to support multiple learning styles and prepare students for success
- Integrate with your Google Workspace to have the ClassFlow lessons, assessments and activities right at your fingertips

- Ability to put students in groups according to their immediate needs and successes
- Badging – Use the built-in badging feature for games, standards, student ownership and awards
- Student collaboration within a lesson that can easily be managed by the teacher
- Rubrics for both teachers and students that keep project scoring equitable and easy to manage
- Teachers have tools to provide feedback in the moment of instruction, during assessments and within personal assignments
- Student cards that keep students on track with the teacher within a lesson
- Individual student accounts where students can connect, create, document and communicate
- Consistent tools whether you are in the classroom, remote or both

Protecting Student Data

ClassFlow is committed to safeguarding students and protecting your personal data. ClassFlow is recognized by iKeepSafe for it's compliance with the Family Educational Rights and Privacy Act (FERPA), the Student Online Personal Information Protection Act (SOPIPA), and the Children's Online Privacy Protection Act (COPPA).

Promethean

Addressing Learning Loss Tip:

Grade-level content should remain the core focus with activities that engage students through challenging activities and supports social emotional skills.

- Accelerate learning by creating **Blended Learning** resources with the built-in recording tools within ActivInspire or add the Promethean webcam to your solution.
- Consistent experience with **Interactive Tools** like our math tools, which allow students to focus on the activity and prevent them from having to learn new tools when teachers navigate from virtual to in-person learning
- The **Activity Builder** is a quick way to generate interactive activities that drive engagement, monitor student success and can easily be created, shared and interacted within any of our delivery platforms (ActivInspire, ActivPanel and ClassFlow)
- **Gamification** brings a dynamic approach to quickly moving students through practicing and improving skills
- Excite students by immersing them in any topic by customizing the **Apps** experience on the ActivPanel

- **Screen Share** leverages the applications on a student's device giving them individual tools to design and create while keeping them connected to the classroom hub (ActivPanel) where they can collaborate and model their work and understandings.
- Create **Digital Manipulatives** to engage and connect every child
- Built-in tools that foster and develop **Social Emotional Skills** that are easily managed by the teacher. Customize collaborations by fluid grouping, screen sharing, using **Augmented Reality** apps to provide experiential learning and create collaboration spaces where students work together but maintain accountability like within the Promethean Whiteboard app Multi-User experience
- **ActivInspire** has built-in actions that allow teachers to design engagement activities that highlight their grade-level content and simply turn on **Teacher Lock** to secure your activities within your centers.
- The profiles on the ActivPanel can be customized with engagement tools and activities to create an **Immersive** learning experience

Addressing Learning Loss Tip:

Provide professional development to support your teachers with effectively using technology in ways that provide meaningful learning opportunities that are connected to grade-level expectations.

Promethean™ Professional Development Trainers

Promethean provides extensive professional development resources and consultation services designed by educators to ensure our customers get the support they need, including a wide variety of in-person and virtual courses, personalized training, a resource center, virtual and on-site summits, camps, Promethean Certified Teacher and more.

Learn Promethean®

The Learn Promethean website offers an array of resources to help educators get the most out of our suite of products and services. Teachers can choose from self-paced online courses, on-demand video tutorials and articles about current trends in education.

myPromethean

The ActivPanel has a built-in help app to assist teachers with navigating their new hardware right out of the box.
MyPromethean.com has a library full of ready-made resources for teachers to easily begin connecting and engaging with grade-level content.
